THE BLEND SPECIALISTS

TOPMIN

LOOSE MIX HORSE LICK

✓ **AIDS IN THE PREVENTION OF BIG HEAD IN HORSES GRAZING C4 GRASSES**

(Buffel, Panics and Kikuyu)

✓ **NO MOLASSES**

Highly palatable without molasses reducing dietary intake of sugars.

✓ **FORTIFIED**

Minerals and vitamins added to supplement the low levels in dry pasture and hay

✓ **CONTAINS ELECTROLYTES**

Needed to replace sweat and encourage feed and water intake

✓ **MAINTENANCE**

To maintain body condition, mane coat and hoof health on a hay or and pasture diet while reducing 'hay gut'

✓ **REDUCES CHEWING**

Reduces abnormal chewing behaviour

TOPMIN Horse lick is formulated to address possible deficiencies in a diet of mostly hay and pasture

FEEDING INSTRUCTIONS

RECOMMENDED DAILY INTAKE: 100-250g per horse

Ad-lib: feed out in a trough or tub that allows drainage

Topmin will repel some water, but should **not** be allowed to sit in water.

Can also be mixed with feed if desired. Suitable for horses at all life stages.

BENEFITS OF FEEDING TOPSTOCK TOPMIN HORSE LICK

1. Supplies all essential macro and trace minerals and vitamins in a palatable form
2. Improves intake and utilisation of hay and pasture.
3. Encourages even grazing of pasture.
4. May help to stop Pica (eating things they shouldn't like soil and tree bark)
5. Designed to be fed ad-lib (free choice), means horses only eat enough to maintain their levels.
6. Good supplement for pregnant mares to support foal development.
7. Good supplement for lactating mares to supports milk production.
8. OK for foals to eat when creep feeding.
9. No sugar – from molasses to avoid Lamentitis and EMS in susceptible horses.
10. Can be added to hard feed.
